

Risk Logic Inc.[®] est. 1997

The Logical Choice in Loss Prevention.

DIVISIONS

**R
L
I**

Property Loss Prevention HPR

Our HPR engineers have previously worked for FM Global, IRI, or other reputable companies in our industry. We can perform comprehensive process hazard, fire protection and natural peril analysis at all high-challenging occupancies.

Property Lite

We offer Property Lite inspection expertise for soft occupancies and smaller commercial properties at a discounted cost. Our report format is concise, cost-effective, and can be tailored to meet the needs of any customer. All reports are reviewed by an HPR engineer.

RMIS

Our Risk Management Information System (RMIS) takes any report and digitizes it into your own Microsoft secured database. We then provide account summary data such as loss estimates, risk improvement recommendations, risk scoring, and NatCat data.

SERVICES

Direct Clients

We work closely with Risk Management to provide enterprise-wide loss prevention services.

*Completed **3,000+** surveys in over **40** countries in 2022.*

Insurance Brokers

We provide loss prevention reports for marketing and risk improvement purposes, and work with over 100 brokers and wholesalers.

*Hit on **90%** of all RFPs in 2022*

Insurance Carriers

We supplement an Insurance Carrier's loss control department by conducting loss prevention inspections, account review work and plan reviews.

***57%** growth in 2022*

Property Loss Prevention HPR

We respond to inspection submission requests within 24 hours. We can handle rush inspection requests flawlessly. **Our pricing typically beats our competitors by 25% or more,** and we have expertise in all high-challenge occupancies.

Business Interruption

We capture and analyze critical Business Interruption data during surveys, including procurement of raw materials, process flow, interdependencies, and makeup capabilities. We can facilitate the development of Business Continuity Planning as well.

Account Review

We have comprehensive Account Engineering and Management experience and most RLI engineers have previously worked at major property insurance companies and brokers. In addition, we can supplement your account and risk management teams.

Equipment Breakdown & Jurisdictional

We partner with multiple Boiler and Machinery (B&M) engineering companies that can conduct B&M and jurisdictional inspections on a global basis. Our engineers can also perform focused assessments and loss control analysis of critical equipment.

Account Engineering

Each client is assigned an experienced Account Engineering Manager who will be a single source contact.

*Our engineers have an average of **28** years of experience!*

Multiline & Casualty

Our engineers have experience with casualty and multiline surveys, including fleet management, worker's comp, general liability, and products liability.

Plan Review Services

Our engineers perform comprehensive desktop and on-site reviews of new construction projects, additions, site changes, and risk improvement efforts. We review for compliance with NFPA, FM Global or other specific insurance carrier standards.

Code Consulting

We are familiar with NFPA Standards, FM Global Data Sheets, and various building and fire codes (IFC, IBC, etc), and can work with code officials to meet unique engineering challenges and code compliance solutions.

Fire Protection Impairment

We provide a cutting edge online and application-based impairment management program. We also supply physical tags to all clients for local use, as well as an Account Engineer to follow up on the oversight of major impairments.
